

## RUBBER BELLOW SEALS

### PEB SERIES

Stationary Ring: Ceramic/SiC/TC

Rotary Ring: Carbon/SiC/TC

Bellows: VITON/EPDM/NBR

Secondary Seal: VITON/PTFE/EPDM/NBR

Springs & Other Parts: AISI 304/AISI 316

| LIMIT OF APPLICATIONS | Temperature<br>Max. 180 C | Pressure<br>8 Bar | Speed<br>3600 RPM |
|-----------------------|---------------------------|-------------------|-------------------|
|-----------------------|---------------------------|-------------------|-------------------|

The PEB Series seals are low cost rubber bellow seals which can be used for non critical applications like water. The heart of the seal is the flexible rubber bellow made from Viton, EPDM, NBR etc.. Based on the applications the Seal faces can be offered in Carbon, Tungsten carbide, Silicon carbide, ceramic etc.. The salient features of the above seal is no need for skilled manpower for installation.
